

Uber Ride Analysis Dashboard Report

- 1. Introduction**
- 2. Dashboard Structure**
- 3. Key Findings**
- 4. Recommendations**
- 5. Conclusion**

1. Introduction

- **Data:** Uber rides from Jan–Feb 2025
- **Tools used:** Excel (Cleaning), SQL (Queries), Power BI (dashboards)
- **Focus areas:**
 - Ride patterns
 - Customer behavior
 - Cancellations
 - Payment preferences
- **Goal:** Improve service efficiency and customer satisfaction

2. Dashboard Structure

The dashboard is divided into the following key sections:

- **Overview** : Revenue, ride volume, cancellations, and top pickup/drop points.
- **Ride Trends** : Time-based ride bookings, weekday vs weekend patterns.
- **Customer Trends** : Customer types, ratings, and payment preferences.
- **Issues** : Ride cancellations, incomplete trips, and their causes.
- **Insights** : Actionable business recommendations based on the findings.

3. Key Findings

3.1 Revenue and Ride Volume

- **Total revenue** : \$7.71M (Jan–Feb 2025)
- **Peak demand** : Weekends and evenings (leisure & commute times)

3.2 Ride Cancellations

- **Overall cancellations** : 50% of bookings
- **Drivers (~25%)** : Long pickup distance, low profitability
- **Customers (~25%)** : Delays, vehicle unavailability, change of plans

3.3 Customer Behavior

- **Repeat customers** : ~47K
- **One-time customers** : ~13K
- **Insight** : High loyalty, but cancellations threaten satisfaction

3.4 Vehicle Preferences

- **Least booked** : Mini
- **Most booked** : Auto
- *Suggests customers prefer affordable and quick mobility options.*

3.5 Payment Preferences

- **Card payments** : 40%
- **Cash payments** : 29.8%
- **UPI and Wallets** : Remaining share
- *Indicates a strong shift towards digital payments, but cash remains significant.*

3.6 Locations

- **Top pickup location** : Koregaon Park
- **Top drop location** : Sinhagad Road
- *Suggests Koregaon Park is a key commercial hub, while Sinhagad Road is a residential hotspot.*

4. Recommendations

4.1 Reduce Cancellations

- Give incentives/discounts for completed rides & Apply penalties for last-minute cancellations.

4.2 Promote Digital Payments

- Offer cashback on UPI/wallets & Add rewards for card payments

4.3 Optimize Vehicle Allocation

- Boost Mini cab usage with discounts & Expand Auto availability in peak areas.

4.4 Enhance Customer Experience

- Increase drivers in Koregaon Park & Provide real-time ETA updates.

4.5 Business Growth Opportunities

- Launch loyalty programs for repeat customers & Expand services in residential hubs like Sinhagad Road.

5. Conclusion

- The dashboard highlights **customer behavior, challenges, and opportunities**.
- Uber has strong **revenue** and **customer loyalty**, but **50% cancellations** are a major issue.
- Solutions: **incentives, digital payment offers, better driver allocation**.
- Overall, this project shows how **data analysis + visualization** can turn raw data into **business strategies**.
